

Another future

“Someday you may have to work in an office where the lights are **carefully programmed and tested by your employer to hack your body’s** natural production of melatonin through the use of blue light, eking out every drop of energy you have while you’re on the clock, leaving you physically and emotionally drained when you leave work. Your eye movements may someday come under the **scrutiny of algorithms** unknown to you that **classifies you on dimensions such as “narcissism” and “psychopathy”, determining your career and indeed your life prospects.**”
